

Career Objective

As a postgraduate student with 2 years of experience in the field of optometry, I have developed soft skills like effective communication, problem-solving, environmental adaptation, time management, and conflict resolution. My work in the field also increased my interest in working for people at the grassroots level, which is why I am currently pursuing a Masters in Public Health. I am looking forward to working for an organization that will help me better understand my interests while also enhancing my skills.

Area Of Interests

PROJECTS

Community Vision Screening & Awareness Program

Objective: Organized and conducted free eye screening camps in rural areas to identify refractive errors, cataracts, and common eye disorders.

Methods: Collaborated with local NGOs and healthcare centers, using mobile eye clinics for screenings. Educated the community on eyecare and prevention strategies.

Outcome: Screened 500+ individuals, identified 200+ cases needing corrective measures, and distributed free spectacles to underprivileged patients
